

Fee's and Associated Costs

The club is committed to keeping its costs as low as possible for all of the activities it offers to its members. However, the sport of swimming obviously has costs attached and the club must ensure that it remains financially viable through its pricing structure.

The club is committed to a policy of inclusiveness regardless of background and personal circumstances and can offer financial assistance on request with respect to fees and costs where this is deemed appropriate.

*All persons who swim with the club must be current members, having paid the appropriate annual membership fee. This fee incorporates an annual insurance premium paid to the ASA and ensures that **all members are fully insured when participating in the club's swimming activities**. A copy of the club's insurance policy is displayed on all venue notice-boards.*

Non-payment of membership fees = no insurance = NO SWIMMING.

All questions and queries relating to the club's insurance should be directed to either the club Chairperson or Secretary.

In addition to the membership fees, swimmers must pay a monthly squad fee. The current squad fees can be found [here](#).

Unlike most of our main rivals, Satellites are totally self supporting. We get no assistance from the Borough or County Councils and spend an enormous amount of money annually on pool hire (with no discount). Our main source of funds are training fees, teaching class fees, membership subscription and our annually run open swimming gala profits. You can help by always paying your training fees and subscription on time and when your child/children change training times or squads by quickly changing your standing order so that months do not elapse before payments are amended. Also please pay any outstanding balances promptly.
