

Swim 21

Swim21 Club Accreditation is the Amateur Swimming Association's (ASA's) 'quality mark'.

It recognises nationally and regionally the clubs that are committed to providing safe, effective and quality services for the benefit of their members.

It is the ASA's Club Development model - a planning tool, based on the principles of Long Term Athlete Development, enabling clubs to help athletes, teachers, coaches and administrators to achieve their full potential. It focuses particularly on the needs of athletes - striving to provide them with the best possible support and environment.

Clubs who want to secure Swim21 Accreditation work steadily towards the gaining of a series of outcomes, all of which are seen as essential if the right level of support is to be provided at each stage of an athlete's development.

Satellites currently have Swim21 accreditation at the Skill Development Level. In the future the club is looking to become Swim21 accredited at the teaching level for our lessons provision and at the competitive development level for the competitive club.
